National News – Significant Events

Democrats Argue Over Islamic State Fight After Paris Attacks

(BBC News) The Democratic presidential hopefuls have clashed over how to deal with militant group Islamic State, in the wake of deadly terror attacks in Paris. Hillary Clinton, speaking on a debate stage in Iowa, said "it cannot be an American fight" and called on Turkey and the Gulf states to do more. But rival Martin O'Malley disagreed and said the US had to "stand up to evil" and lead from the front. The attacks killed 129 people and injured hundreds in the French capital. Hours after the near-simultaneous attacks on Friday, CBS News vowed to shift the focus of the debate to put more emphasis on counter-terrorism and foreign policy. A moment's silence was observed in Des Moines before the debate began, and the three candidates expressed their condolences to the French people. But then they clashed over the rise of IS, which has claimed responsibility for the atrocities. Mrs. Clinton, the former secretary of state, was challenged by Vermont Senator Bernie Sanders for backing the Iraq War, which he says led to the rise of the militants. She disagreed, saying US foreign policy did not have the "bulk of responsibility" for the instability in the region, pointing instead to Syrian President Bashar al-Assad and Iraq's former leader, Nouri al-Malaki. IS cannot be contained, it must be defeated, Mrs. Clinton said, but she and the other candidates did not spell out how far they would go. The US has been part of a coalition of countries taking part in air strikes against IS in Syria and Iraq, but some of the Republican presidential candidates have called for the deployment of US ground forces.

International News – Significant Events

10 Killed After French High-Speed Train Derails and Crashes into Canal

(CNN) At least 10 people were killed in eastern France on Saturday after a high-speed train came off the tracks and plunged into a canal during a test run, authorities said. Around 50 people -- mostly engineers and other railway staff -- were aboard the TGV when it derailed outside the city of Strasbourg, according to the French railway operator SNCF. Images from the scene showed sections of the train partially submerged in the canal, near a bridge. Besides those killed, five other people remain unaccounted for, 12 were seriously injured and 22 were slightly injured, the French Ministry of Ecology, Sustainable Development and Energy said in a statement. The news agency Agence France-Presse reported that it was the country's first fatal TGV accident in three decades. The ecology ministry, which is responsible for the transportation sector, said the cause of the "dramatic accident" wasn't yet known. Technical experts have been called in to investigate. The SNCF said there was nothing at this stage to link the disaster to the deadly terrorist attacks in Paris on Friday. AFP cited a senior local official, Dominique-Nicolas Jane, as saying that the accident happened "because of excessive speed." The train was running on a new stretch of a high-speed line linking Paris with Strasbourg that's due to open next year.

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

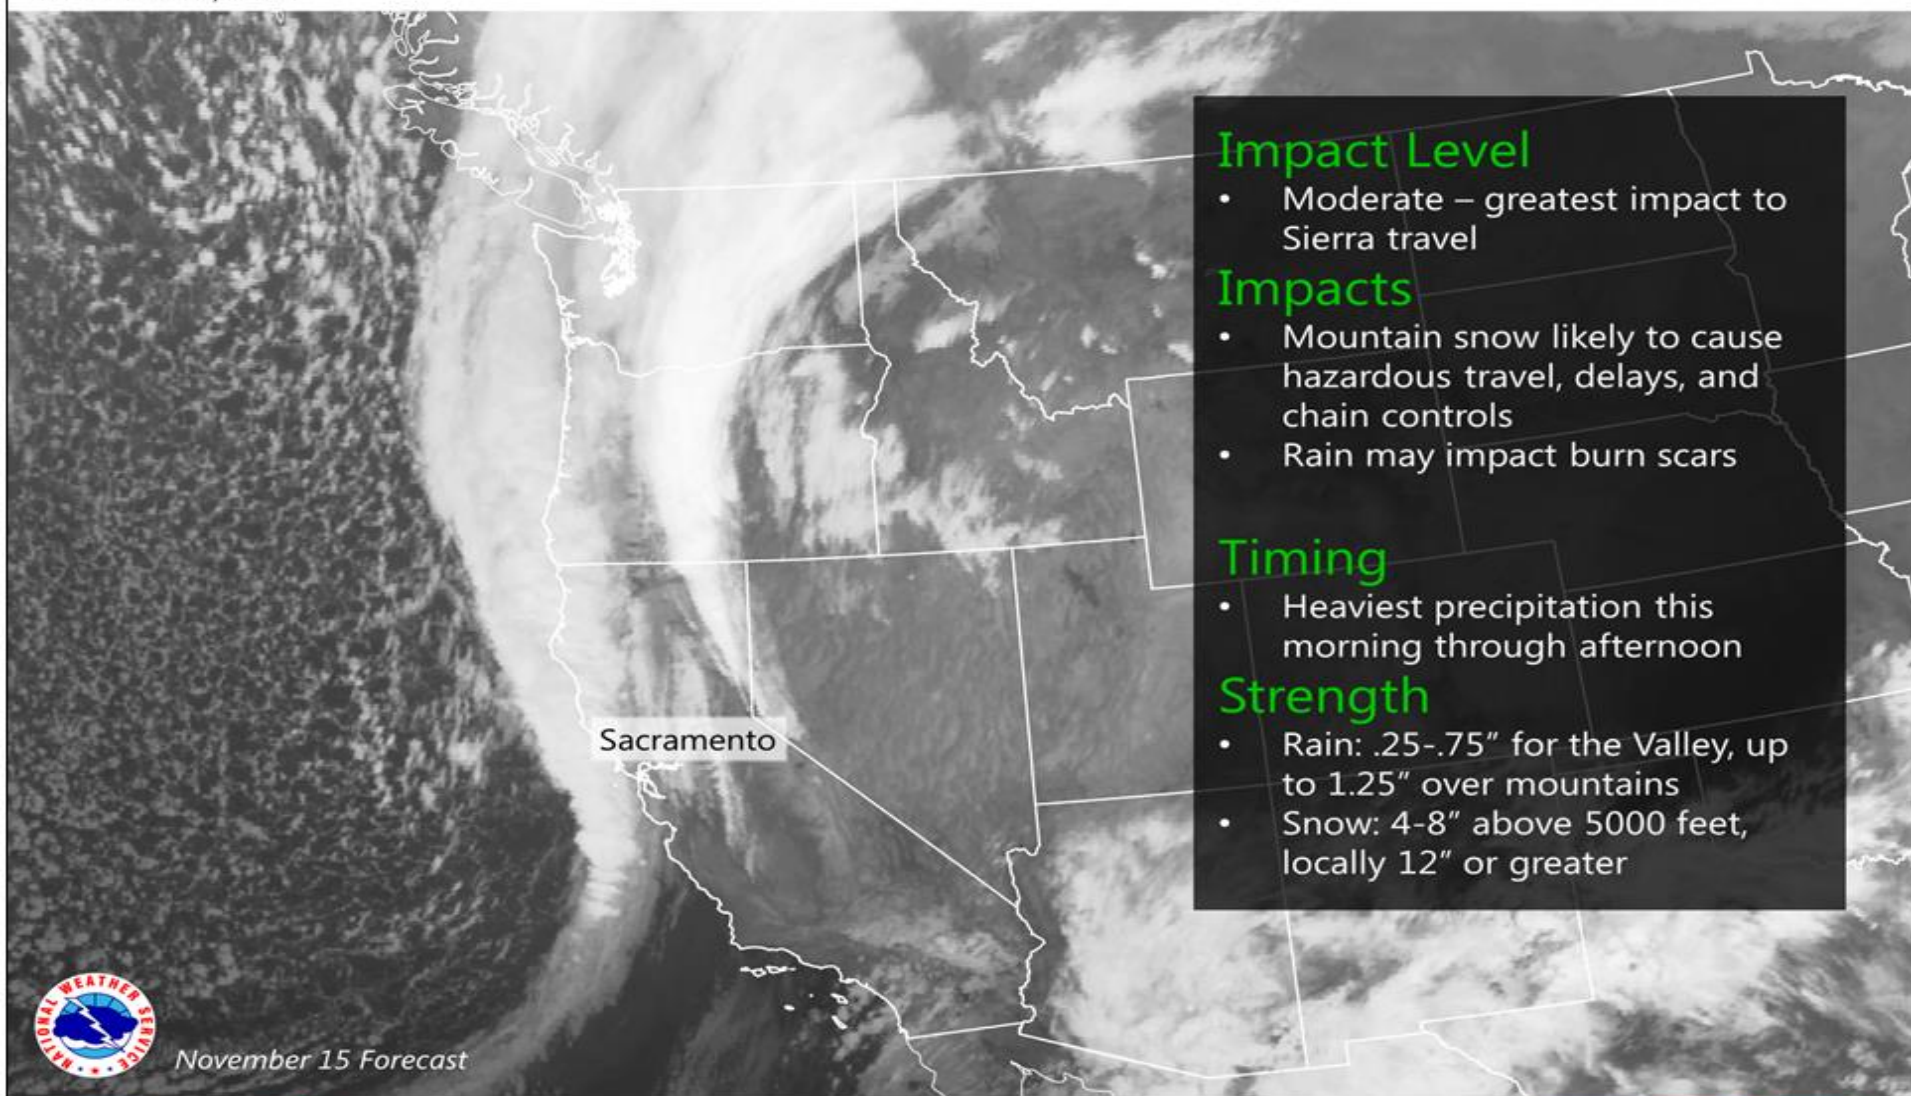

- Rain in Northern California will spread southeast early this morning and then taper off this evening. Rain and snow will drop below pass levels. Low confidence for potential debris flows due to heavier embedded rainfall.
- Strong northwest to north winds will impact much of Southwest California in the wake of a passing cold front starting tonight and continuing into Monday. *Winds will then shift to the northeast by Monday night into Tuesday allowing for a moderate Santa Ana Wind event to develop across areas in Southwest California.*
- High Wind Warning in effect until 1900 tonight for areas in Modoc County.
- High Wind Warning in effect from *1000 this morning* to 1000 Monday for areas in San Bernardino County.
- High Wind Warnings in effect from *1400 this afternoon* to 1000 Monday for areas in Riverside and San Diego Counties.
- *High Wind Warnings in effect from 1800 this evening through 1500 Tuesday for areas in Los Angeles and Ventura Counties.*
- *High Wind Warning in effect from 1800 this evening through midnight Monday for areas in Santa Barbara County.*
- *Freeze Warning in effect from 2300 this evening to 0800 Monday for areas in Del Norte, Humboldt, Mendocino, and Trinity Counties.*

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Eureka Weather:

Northwest winds will be gusty today behind a cold frontal passage. Rain will diminish to showers through the day with a slight chance for thunderstorms along the coast. The rest of the week will remain unsettled as a series of fronts cross the region.

Medford Weather:

Moderate to heavy rain is expected all across the west side this morning before the front lessens as it moves further inland. After high winds this morning, the forecast area will remain breezy all day. Cold air then moves in later today and tonight with snow levels falling rapidly to around 2000 feet and remaining there through early Monday. An active weather pattern is forecast Tuesday through Thursday and then a drying trend for the latter half of the week.

Reno Weather:

Low pressure moving across the Sierra will bring gusty winds and much colder conditions to the region today. Areas of snow will develop later this morning in the Sierra and continue through this evening, producing hazardous travel conditions. For lower elevations, lighter snow accumulations are possible this evening. Brisk and chilly conditions will continue through Monday.

San Francisco Weather:

A cold front will spread rain across the entire region early today. Rain may be briefly heavy as the front moves through around sunrise. After frontal passage, blustery conditions will develop by late morning with locally strong and gusty northwest winds expected this afternoon and evening, especially near the coast. Showers will taper off this afternoon and end by late this evening. Dry weather is forecast from Monday through the end of the week. Temperatures will be cool at the beginning of the week, but warming will develop by midweek.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Sacramento Weather:

A storm system will move across the area today bringing rain and mountain snow. Light showers may continue across the northern portions of the state into midweek with dry conditions elsewhere.

Hanford Weather:

Rain and higher elevation snow beginning by midmorning over the northern forecast region, spreading south through the day today. Clearing and cooler conditions expected by Monday except for the southern and southeastern portion of the forecast area which will continue to see lingering showers.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

A frontal system will bring some rain to the region today, especially across northern sections. Behind the front, it will turn much cooler and there will be some rain showers and mountain snow showers on northern mountain slopes tonight into Monday. Strong and gusty winds will develop across much of the region this afternoon and persist in many areas through Tuesday. Warmer conditions and dry weather is expected Wednesday through Friday.

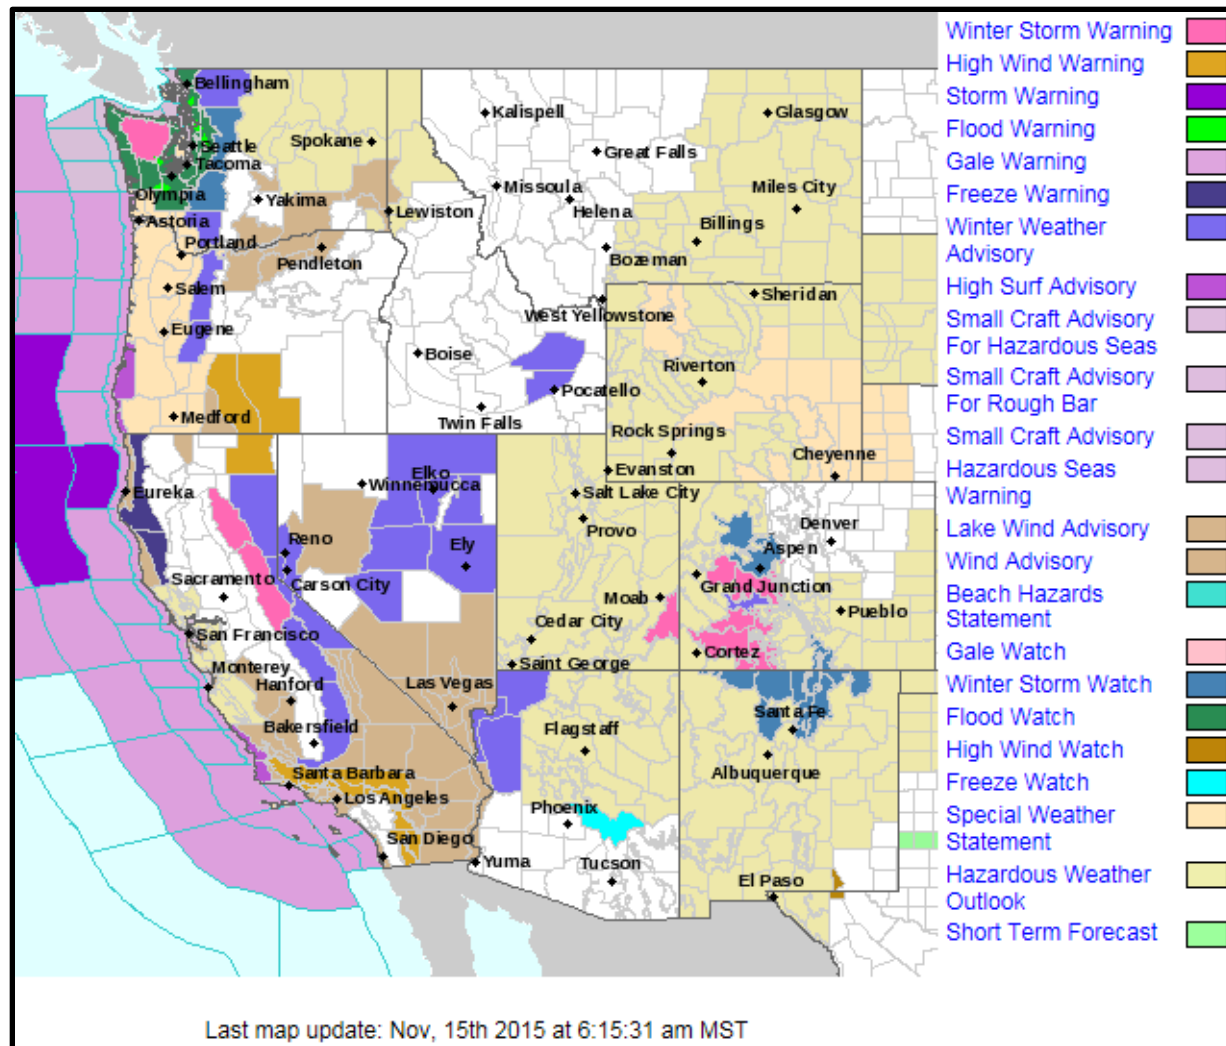

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

A trough of low pressure moving inland through Southern California through early Monday will bring strong gusty west winds for the mountains and deserts into Monday morning, a period of showers spreading southward during the afternoon and ending from the northwest overnight, and cooler temperatures. Stronger offshore flow will follow for Tuesday into Wednesday with strong gusty north to northeast winds near and below coastal mountains slopes. Warmer and dry conditions with weaker winds expected for Thursday through Saturday.

Southeast California Weather:

A series of weather disturbances will affect the region today and Monday. The strongest weather disturbance Monday will usher in a much colder air mass with below average temperatures persisting through Tuesday. Strong and gusty winds will also develop Monday over parts of the area. Temperatures will moderate during the middle and end of the week with a return of afternoon highs in the 70s and 80s.

CAL OES Recovery

Inyo County Flooding

- Inyo County experienced flooding October 15 through October 18, 2105, in Death Valley and requested assistance from the U.S. Small Business Administration (SBA). Although the county did not report physical losses to homes and businesses, information indicated there may be economic losses to businesses. Cal OES IA is currently working with Inyo County on capturing economic loss information for businesses. If the County is able to provide information to the State that reveals at least five businesses have suffered substantial economic injury within 120 days from the incident period of the disaster, a formal request may be sent from Cal OES requesting SBA implement its Economic Injury Disaster Loans (EIDL).

Los Angeles County Flooding

- On October 15, 2015, heavy rain and hail occurred in the Palmdale-Lancaster area at approximately 3:00 pm, which caused mudslides and flash floods, and resulted in road closures, stranded vehicles, power outages and other damages. Portions of Interstate 5 and other roads in the area were closed. Evacuation centers were opened for those not sheltering in place as necessary. Areas most impacted by the incident include the unincorporated areas of Lake Elizabeth, Hughes Lake, Leona Valley, Green Valley and the cities of Lancaster and Palmdale. Currently, a gubernatorial State of Emergency has not been proclaimed. Los Angeles County opened a Local Assistance Center (LAC) October 30-31, 2015, and November 7, 2015. State participation included representatives from the Department of Motor Vehicles, Contractors State License Board, and Department of Insurance. On November 4-5, 2015, representatives from Los Angeles County, Cal OES IA, and the U.S. Small Business Administration (SBA) conducted a joint preliminary damage assessment (PDA). Based on the findings, Cal OES submitted a request for a physical loss disaster declaration to SBA on November 12, 2015. If a declaration is approved, SBA will make low-interest loans available to homeowners, renters, businesses, and private non-profit organizations to apply.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC every other Monday at 1100 hours.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

A total of 62 local Emergency Proclamations have been received to date from city, county, and tribal governments, as well as special districts:

- 28 Counties: Butte, Colusa, El Dorado, Fresno, Glenn, Inyo, Humboldt, Kern, Kings, Lake, Madera, Mariposa, Merced, Modoc, Plumas, San Bernardino, San Joaquin, San Luis Obispo, Santa Barbara, Shasta, Siskiyou, Sonoma, Stanislaus, Sutter, Trinity, Tulare, Tuolumne, and Yuba.
- 13 Cities: City of Live Oak (Sutter County), City of Lodi (San Joaquin County), City of Manteca (San Joaquin County), City of Montague (Siskiyou County), City of Porterville (Tulare County), City of Portola (Plumas County), City of Ripon (San Joaquin County), City of San Juan Bautista (San Benito County), City of Santa Barbara (Santa Barbara County), City of Rancho Cucamonga (San Bernardino County) and City of West Sacramento (Yolo County), City of Willits (Mendocino County), and City of Fort Bragg (Mendocino County).
- 9 Tribes: Cortina Indian Rancheria (Colusa County), Hoopa Valley Tribe (Humboldt County), Karuk Tribe (Siskiyou/Humboldt Counties), Kashia Band of Pomo Indians of the Stewarts Point Rancheria (Sonoma County), Picayune Rancheria of Chukchansi Indians (Madera County) Sherwood Valley Pomo Indian Tribe (Mendocino County), Tule River Indian Tribe (Tulare County), Yocha Dehe Wintun Nation (Yolo County), and Yurok Tribe (Humboldt County).
- 12 Special Districts: Carpinteria Valley Water District (Santa Barbara County), Goleta Water District (Santa Barbara County), Groveland Community Services District (Tuolumne County), Lake Don Pedro Community Services District (Mariposa Stanislaus County), Mariposa Public Utility District (Mariposa County), Meiners Oaks Water District (Ventura County), Montecito Water District (Santa Barbara County), Mountain House Community Service District (San Joaquin County), Nevada Irrigation District (Nevada County), Placer County Water Agency (Placer County), Tuolumne Utilities District (Tuolumne County), and Twain Harte Community Services District (Tuolumne County).

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
